# Security and Infrastructure Updates

# Infrastructure

- Deployment of Fathom Analytics to multiple Status websites
- Moved websites to their own domains
  - <https://nimbus.status.im/> > <https://nimbus.team/>
  - <https://keycard.status.im/> > <https://keycard.tech/>
  - <https://getkeycard.status.im/> > <https://get.keycard.tech/>
- Deployed new Ghost instances at:
  - <https://news.nimbus.team/>
  - <https://news.keycard.tech/>
  - <https://news.thestatus.network/>
- Automatic mailserver selection based on TCP ping ([status-react#9394](#))
- Implemented new metrics for **status-go** and **whisper** packages ([status-go#1642](#))
- Started collecting connected peer metrics on the **eth.beta** fleet ([infra-misc#26](#))
  - [https://grafana.status.im/d/gxQG\\_R1Zk/status-peers](https://grafana.status.im/d/gxQG_R1Zk/status-peers)

# Field research. Payment networks in Venezuela.

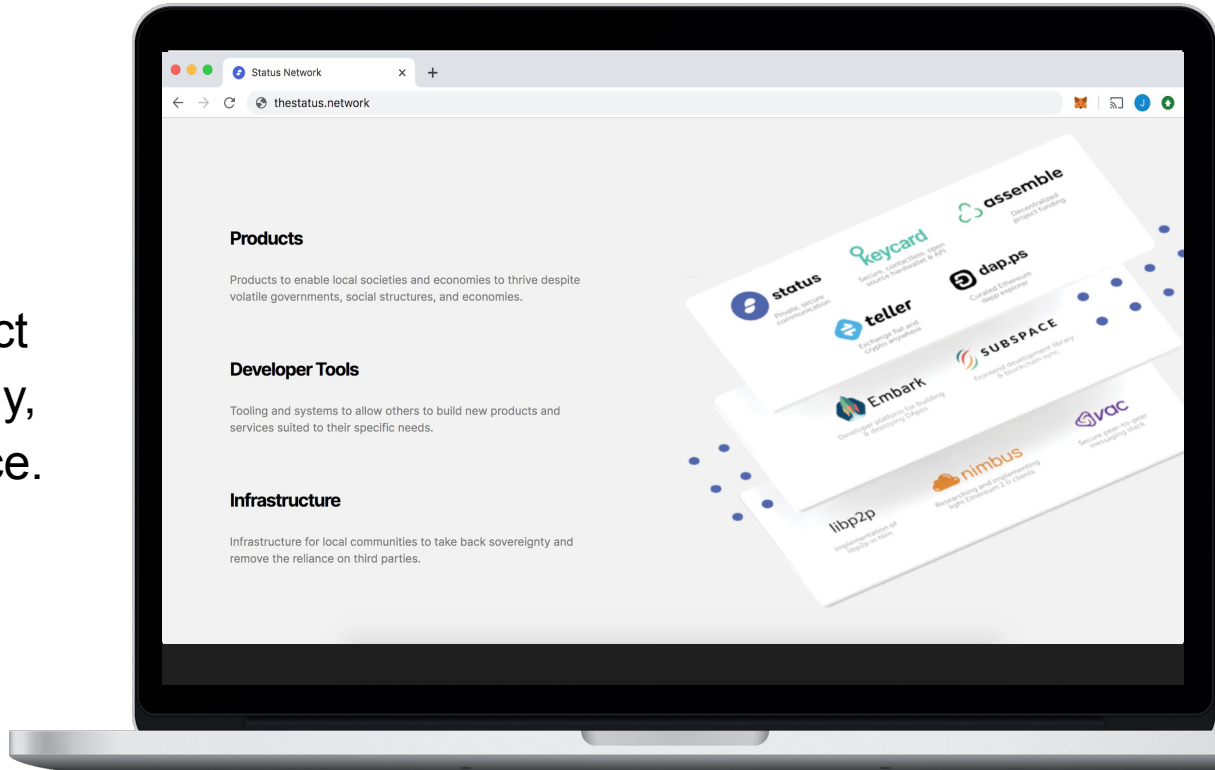

# The Status Network

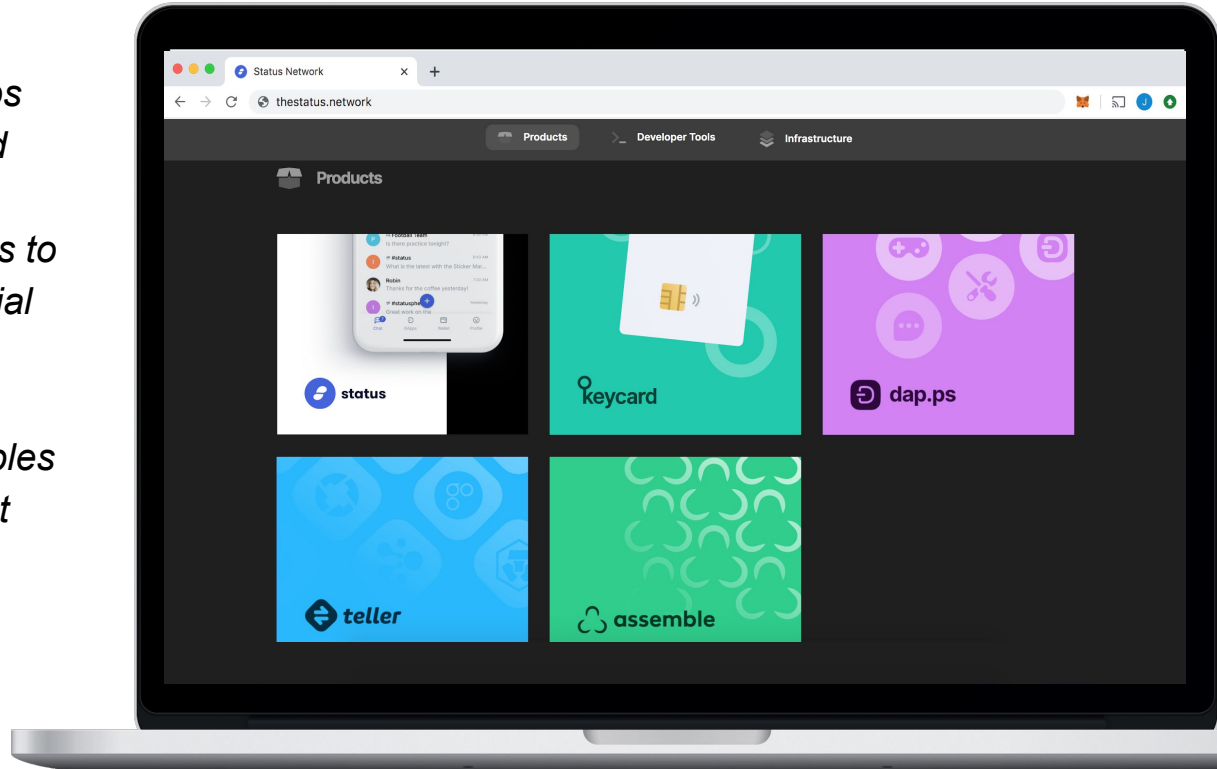

*An ecosystem of products,  
developer tools, and  
infrastructure to empower  
local communities to transact  
securely, communicate freely,  
and organize with confidence.*

<https://thestatus.network/>

1. **Secure communication:** apps for private communication and the freedom to organize.
2. **Frictionless commerce:** tools to trade and access open financial services
3. **Mobile friendly solutions:** mobile-first development enables equal access even in the most remote areas of the world.

# Q&A

# #status-townhall-questions

**Q1: V1 Readiness.**

**How has Status prepared for the onboarding on new users at V1, specifically hardware/software. Has the team had to put in place extra nodes to help alleviate any technical issues given the potential large influx of new users ?**

# #status-townhall-questions

**Q2: Is Status switching to Whisper V2?**

# μTopic Democracy

**ETA:** N/A

## **Progress/changes since last Town Hall:**

- Storybook of components

## **Approximate swarm cost so far:**

- ~\$16k USD (as of 24-Jun)

**Lead:** Ricardo <3esmit.stateofus.eth>
